THIRD PRELIMINARY AMENDMENT

Hon. Commissioner of Patents  
Washington, D.C. 20231

Dear Sir:

Prior to examination, please enter the following amendments:

Please add the following new claims prior to examination:

- 61
76. A visual alarm indicating output device comprising:  
a source of visible light;  
control circuits coupled to the source;  
input terminals, coupled to the control circuits, for receipt of voltages  
in a range of one of 8-17 volts and 16-33 volts.
77. A device as in claim 76 which includes a power supply coupled  
between the input terminals and the control circuits.
78. A device as in claim 77 wherein the control circuits alter an electrical  
parameter associated with energizing the source in response to an applied voltage.
